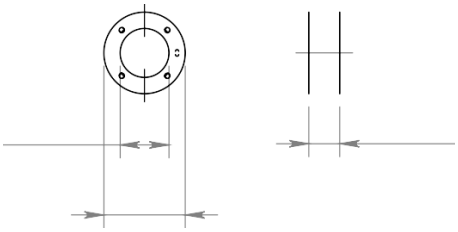
Dark Field Light Small

Dark field lights are ideal for detecting edges and contours.
The standard light beam angle is 10°.

The dark field lights have a diffuser for better evenness of illumination.

Mechanical Dimensions



Order Information						
Order number	Sizes (mm)			Light beam angle	Controller	
	outer ø	Inner ø	hight		continuous mode	strobe mode
SAX3 4025[1]	25	15	9,5	5º	1A	8A

[1]Screw-in depth (M1,6) max 2mm

Step files available on request

Colour Information		
Replace “X” in order number by one character[2]	Colour	Wavelength (nm)
D	Red	630
W	White	
G	Green	525
B	Blue	470

[2]Example for red dark field light: PAD3 4025

Options
Cable length (1 meter included)
Custom light beam angle
